“ I have so many memories of my older brother ..I remember when Dave and I threw our one and only party while our parents were away (conspirators in crime) ! So many fond memories over the years, and even though distance (I live in CT) prevented spending more time together, I will always have my memories and Dave in my heart..love you big brother

“ I have a million memories of my brother that I could share but the one that is most dear to me, was visiting him after our mother passed away, and in the middle of all that he was going through, he was able to still console and comfort me. I love my brother with all my heart, and I will miss him terribly until the day I die! Thank goodness that there are so many of these memories that make me smile when I think of him.
