“ *This was truly a sad event for our community. Kim was a very kind and helpful person. He was a pillar of the lighting community at Ford and Visteon and his knowledge and expertise were unequaled in lighting. Please accept my condolences and know that Kim will be sorely missed.*

“ *My deepest sympathy on the passing of Kim. I first met Kim about 22 years ago when he was fairly new at Ford. Kim was extremely helpful in helping me with the optics on the headlamps for a European vehicle that we were planning to import into the States in the 1980's. Kim was a man of great personal integrity and knowledge and he will be missed by all that new him.*

“ Many of us at BTM Tooling Inc. in Windsor are shocked to hear about Kim's passing over the holidays. I personally knew Kim over 15 years; worked/consulted with him on many tooling related optic issues and shared several enjoyable social events. Kim was well respected for his knowledge and was admired as a man of integrity. Our thoughts, prayers and condolences go out to the Peterson family and friends during this difficult time.

“ We really miss Kim and share your grief. He was well liked and respected. He selflessly shared his time and knowledge with all. Kim was willing to help us out when we were stumped by an optics problem, no matter how busy he was. There was not a lamp he could not fix. It was a real privilege to be one of Kim's colleagues and friends. Please accept my condolences in the loss of your loved one.

“ Kim will be greatly missed. I will especially miss being able to commiserate/celebrate with him following UM games. His depth of knowledge and his practical skills were assets that we simply cannot replace. Please accept my deepest condolences.

“ I would like to extend my condolences to you on your loss. Kim was a pillar of lighting knowledge in the auto industry and we will miss him tremendously. Kim's love of sports was widely known here in the office which he often supported by wearing his favorite team colors or logo. It was easy to forgive him for being a Packer's fan since his love for the Blue and Maize was so great! He was the second biggest U of M fan I knew. Go Blue!

“ To Kim's family and friends. We are all sharing in your great sense of loss. We will surely miss you Kim, the "Wizard" of Lighting. Things I will miss most: Hearing him call somebody a "knucklehead". "Stealing" some of his pretzels. His "red hot" chili. His absolute wealth of knowledge, that he generously shared with all of us. He taught me most of what I know about lighting. I'll also miss exchanging opinions with him on the latest "Survivor" TV show. He was a true fanatic, often bringing in his latest memorabilia from the Survivor charity auction. Well Kim, the tribe has spoken. We will greatly miss you and won't forget you. May you, his family, find comfort in knowing that Kim was considered a friend by many. God bless you in this tough time.

“ *This comes as a terrible shock and I am at a loss of words. Please accept my condolences. I am sorry that none of us at Visteon could attend any of the services just finding out today, but please know our prayers are with your family during this very difficult time. I worked with Kim for over 10 years and learned more for him than any one person. Kim took a chance on me when I first started at Ford and I will forever be grateful. He will be missed.*
